KILLS RATS & MICE

Kills Warfarin Resistant Norway Rats And House Mice

Moisture Resistant • Mold Resistant

ACTIVE INGREDIENT: Brodifacoum (CAS #56073-10-0): 0.005%

CONTAINS DENATONIUM BENZOATE 100%

DIRECTIONS FOR USE

1. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in areas prone to vandalism.

2. Place 1 block per placement. Space placements at 8 to 12 foot intervals in infested areas. Two or more placements may be needed in heavy infestations.

3. Replace contaminated or spoiled bait immediately. Wearing gloves, collect and dispose of dead rodents and/or unused bait.

4. For use in sewers, thread wire through block and securely attach to a stationary structure such as the bottom step of a manhole ladder or a sewer grate. Allow just enough wire for the block to rest on manhole structure.

5. For use in alleys and sewers. Do not place near or inside ventilation duct openings. Burrow baiting with Final All-Weather Blox is prohibited.

STORAGE AND DISPOSAL

Kills rodents in sewers and alleys. For commercial buildings, keep rodents away from food and living areas by excluding them through walls, doors, windows and other openings. For other areas, keep bait out of reach of children and pets. Do not get in eyes or on clothing. Harmful if swallowed. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing. Keep children and pets away from treated areas. Keep away from children and pets. Keep out of reach of children.

KEEP OUT OF REACH OF CHILDREN CAUTION

This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging animals and pets. Do not get in eyes or on clothing. Harmful if swallowed. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing. Keep children and pets away from treated areas.

CAUTION

Nonrefillable container. Do not reuse or refill this container.

American Pest

Storage and Disposal

Nonpersistent, odorless, colorless. In structurally sound, well ventilated buildings, do not need special equipment or surfaces that come into direct contact with food. Do not broadcast bait. When used in USDA approved structures, use with PESTS REPELLENTS.

ADDITIONAL INSTRUCTIONS

1. Store unused product out of reach of children and pets.

2. IMPORTANT: Do not expose children, pets, non-target mammals, or birds to rodenticides. To help prevent livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.

3. Dispose of product container and unused, spoiled, or unconsumed bait as specified on this label.

4. To prevent reinfestation, limit sources of rodent food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous supply of fresh bait is available, bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be secured or otherwise immobilized. Stronger bait stations may be needed in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.

5. FWP: Place 1 to 5 blocks (at intervals of 10 to 30 feet) per placement in infested areas. Ensure bait placement is protected from rain and snow. For food, initial food source through the evening of the day after feeding begins. Do not apply directly to water, or to areas where surface water is present or to intertidal areas of tidal rivers or tidal bays below mean higher high water. This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging animals may inadvertently consume a lethal dose with relatively small amounts.

6. USE RESTRICTIONS:

Finally, dispose of any remaining bait or unused, spoiled, or unconsumed bait as specified on this label. Keep out of reach of children and pets. USE RESTRICTIONS:

7. All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves or removes the treated bait or container or any person who retrieves or removes the treated bait or container or any person who retrieves or removes the treated bait or container or any person who cleans or has contact with infected material must wash thoroughly with soap and hot water. If in Eyes

8. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.

9. If in Eyes

After thorough rinsing with water, get medical advice.

10. If on Skin

After thorough rinsing with water, get medical advice.

11. If on Clothing

Take off contaminated clothing.

12. If in Mouth

Induce vomiting. Do not give anything by mouth to an unconscious person. Get medical advice.

13. If Inhaled

Remove to fresh air. If not breathing, give artificial respiration. Get medical advice.

14. If Exposed to Eyes

Rinse eyes with plenty of water for 15 minutes. Get medical advice.

15. If Exposed to Skin

Wash skin with soap and water for 15 minutes. Get medical advice.

16. If Ingested

Induce vomiting. Do not give anything by mouth to an unconscious person. Get medical advice.

17. If Inhalation

Move exposed person to fresh air. If not breathing, give artificial respiration. Get medical advice.

18. If Swallowed

Induce vomiting. Do not give anything by mouth to an unconscious person. Get medical advice.

19. If Eye Contact

Get medical advice.

20. If Skin Contact

Wash skin with soap and water for 15 minutes. Get medical advice.

21. If Inhaled

Move exposed person to fresh air. If not breathing, give artificial respiration. Get medical advice.

22. If Ingested

Induce vomiting. Do not give anything by mouth to an unconscious person. Get medical advice.

23. If Inhalation

Move exposed person to fresh air. If not breathing, give artificial respiration. Get medical advice.

24. If Ingested

Induce vomiting. Do not give anything by mouth to an unconscious person. Get medical advice.

25. If Contact Skin or Clothing

Wash skin with soap and water for 15 minutes. Follow manufacturer’s instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE and wash hands after handling this product.

26. Pesticide Disposal:

Do not contaminate water, food or feed by storage or disposal. This product is toxic to fish. Do not apply directly to water, or to areas where surface water is present or to intertidal areas of tidal rivers or tidal bays below mean higher high water. This product is toxic to fish. Do not apply directly to water, or to areas where surface water is present or to intertidal areas of tidal rivers or tidal bays below mean higher high water. This product is toxic to fish.
