

Greg Green

IPM Sales & Service Specialist

History with Wil-Kil:

Greg joined Wil-Kil in 2016

Approach to Pest Control: I have found that the best way to approach a pest control problem is to be patient and extremely observant. Sometimes it takes a very keen eye for detail to find the evidence left behind by pests, but you can always find it. Once I understand where a pest is and how they are getting in, I can work with my customers to find the best solution.

Pest Control Certifications

7.1 Structural Pest Control

5.0 Aquatic Pest Control (Mosquito Control)
