1. PRODUCT IDENTIFICATION

1.1. Product Identifiers
   Product name: InVict™ Xpress™ Granular Bait

1.2. Other Means of Identification
   Product synonyms: InVict™ Blitz™ Ant Granules

1.3. Recommended Uses/Restrictions to Use
   Uses: 0.5% imidacloprid granular bait for control of various pest species per label
   Restrictions: See product label for details

1.4. Supplier Details
   Company: Rockwell Labs Ltd
   1257 Bedford Avenue
   North Kansas City, MO 64116-4308
   USA
   Telephone: 1 816-283-3167

1.5. Emergency Contact
   Outside normal business hours
   Emergency Phone #: 1 800-424-9300 (USA & Canada)
   1 703-527-3887 (Outside USA & Canada)

2. HAZARDS IDENTIFICATION

2.1. Classification of Substance or Mixture
   none

2.2. GHS label elements, including precautionary statements
   Pictogram(s): none
   Signal word: none
   Hazard statement(s): none
   Precautionary statement(s): none

2.3. Other hazards which do not result in classification
   Imidacloprid is a neurotoxin that when consumed in sufficient quantities can have adverse effects up to and including death. This product contains a low

Rockwell - RP0011
concentration of imidacloprid and normal use should not result in significant occupational hazard.

3. **COMPOSITION/INFORMATION ON INGREDIENTS**

   3.1. **Substances**
   Not applicable

   3.2. **Mixtures**
   Hazardous component(s) or components of note:

4. **FIRST AID MEASURES**

   4.1. **Description of first aid measures**
   **General advice**
   Consult a physician or poison control center. Provide this safety data sheet to medical personnel. Move out of hazardous areas.
   **If inhaled**
   Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice.
   **In case of skin contact**
   Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
   **In case of eye contact**
   Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
   **If swallowed**
   Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

   4.2. **Most important symptoms and effects, both acute and delayed**
   Imidacloprid may cause drowsiness, dizziness, vomiting, disorientation, and fever with ingestion of more than an incidental amount.

   4.3. **Indication of any immediate medical attention and special treatment needed, if necessary**
   See section 4.2.

5. **FIRE FIGHTING MEASURES**

   5.1. **Extinguishing media**
   Suitable extinguishing media: use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

   5.2. **Specific hazards arising from the chemical**
Oxides of carbon, nitrogen, and sulfur.

5.3. Special protective equipment and precautions for fire fighters
Wear self contained breathing apparatus for firefighting if deemed necessary.
Additional information: none.

5.4. Further information
No data available

6. ACCIDENTAL RELEASE MEASURES
6.1. Personal precautions, protective equipment and emergency procedures
Avoid contact with spilled product and contaminated surfaces. Evacuate personnel to safe areas during emergencies. For safe handling instructions see section 7. For proper PPE see section 8.

6.2. Environmental precautions
Prevent further leakage or spillage if safe to do so. Do not allow release directly to water, to areas where surface water is present or to intertidal areas below the mean high-water mark.

6.3. Methods and materials for containment and cleaning up
Sweep up any spilled material and dispose of according to instructions in section 13. Wash contaminated surfaces with soap and water.

7. HANDLING AND STORAGE
7.1. Precautions for safe handling
Handle in accordance with good industrial hygiene practices. Wash hands thoroughly with soap and water after use and before eating, drinking, chewing gum, using tobacco, or using the toilet. For additional precautions see section 2.2

7.2. Conditions for safe storage, including any incompatibilities
Store in a dry place. Store in original container. Do not store where children or animals may gain access.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION
8.1. Control parameters
Components with workplace parameters

<td>-----</td>
</tr>
</tbody>
</table>

8.2. Appropriate engineering controls
Ensure relevant engineering controls are employed to prevent exceeding threshold values for the listed control parameters in section 8.1.

8.3. Individual protection measures, such as personal protective equipment
In normal use and handling conditions refer to the product label for required PPE. In all other cases the following recommendations would apply.
Eye/face protection
Safety glasses or other similar eye protection conforming to ANSI Z87.1 standards recommended when handling product.

**Skin protection**

Chemical resistant nitrile rubber or similarly compatible gloves recommended when handling product. Dispose of contaminated gloves after use in accordance with applicable local and state regulations. Wash exposed skin with soap and water immediately. Wash all contaminated clothing prior to reuse.

**Respiratory protection**

Not required under normal use conditions. Particulate respirator recommended when risk assessment show need for air-purifying respirators.

**Thermal hazards**

None known

9. **PHYSICAL AND CHEMICAL PROPERTIES**

9.2. Additional Information

No data available

10. STABILITY AND REACTIVITY

10.1. Reactivity

No data available

10.2. Chemical stability

Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions

No data available

10.4. Conditions to avoid

Exposure to excessive heat.

10.5. Incompatible materials

Strong oxidizing agents. Strong reducing agents.

10.6. Hazardous decomposition products

Other decomposition products – no data available

In the event of a fire: see Section 5

11. TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects

Acute Toxicity

LD50 Oral – Rat – > 5000 mg/kg
LD50 Dermal – Rat – > 5000 mg/kg
LD50 Inhalation – no data available

Skin corrosion/irritation

Skin – Rabbit
Results: not irritating to skin
(OECD Test Guideline 404)

Serious eye damage/irritation

Eye – Rabbit
Results: minimal eye irritation
(OECD Test Guideline 405)

Respiratory or skin sensitzation

Not a known sensitizer

Germ cell mutagenicity

Not a known mutagen

Carcinogenicity

IARC: No component of this product presents at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
ACGIH: No component of this product presents at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by ACGIH.

NTP: No component of this product presents at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by NTP.

OSHA: No component of this product presents at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by OSHA.

Reproductive toxicity
No data available

Specific target organ toxicity – single exposure
Imidacloprid is a neurotoxin that when consumed in sufficient quantities can have adverse effects up to and including death. This product contains a low concentration of imidacloprid and normal use should not result in significant occupational hazard.

Specific target organ toxicity – repeated exposure
No data available

Aspiration hazard
No data available

11.2. Other information
No data available

12. ECOLOGICAL INFORMATION

12.1. Toxicity
Toxicity to fish no data available
Toxicity to daphnia no data available
and other aquatic invertebrates

12.2. Persistence and degradability
No data available

12.3. Bioaccumulative potential
No data available

12.4. Mobility in soil
No data available

12.5. Other adverse effects
No data available

13. DISPOSAL CONSIDERATIONS

The best disposal method is to use the entire product per label directions. If it is necessary to dispose of unused material then follow the label instructions and relevant local, state and federal waste disposal guidelines.

Product Disposal:
Do not contaminate water, food or feed by storage or disposal.
Packaging Disposal:
If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP which is managed as a public-private partnership.

14. TRANSPORT INFORMATION
   DOT
   Not dangerous goods
   IMDG
   Not dangerous goods
   IATA
   Not dangerous goods

15. REGULATORY INFORMATION
   This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

   KEEP OUT OF THE REACH OF CHILDREN
   CAUTION
   Causes moderate eye irritation.
   Avoid contact with eyes or clothing.
   Wash hands thoroughly with soap and water after use and before eating, drinking, chewing gum, using tobacco, or using the toilet.
   This pesticide is highly toxic to birds and aquatic invertebrates.
   Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.
   To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters.

   SARA 302 Components
   No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

   SARA 313 Components
   This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

   SARA 311/312 Hazards
   Acute Health Hazard (Imidacloprid)

   California Proposition 65 Components
   This product does not contain any chemicals known to the state of California to cause cancer, birth defects, or reproductive harm.
TSCA

All components of this product are listed, exempted, or excluded from listing on the U.S. Toxic Substances Control Act chemical substance inventory.
