#### History with Wil-Kil:

Justen joined Wil-Kil in 2017

#### Approach to Pest Control:

I like to approach pest control like it's something new each time I meet with a client. No two pest problems are exactly the same, so no two treatments will work exactly the same. I like to take the time to get to know my clients and understand what kind of pest problem they are facing so I can find the best way to deal with it.
